## AUSTRALIAN AGRICULTURAL COMPANY

With a grant for a Million acres, and a Charter from England, the Australian Agricultural Company began in 1824 with a charge to cultivate and improve the vast rangelands of Northern Australia. Today, AACo is known around the world for its portfolio of Wagyu Brands, its care of over 6.4 million hectares of Prime Australian Pasture and its passion and commitment for Wagyu Beef Production. The 440,000 Wagyu Herd contains the most highly credentialed Wagyu cattle to leave Japan. Three Japan born, Hongen registered champion sires are the founding patriarchs of the Westholme herd – 001 Hirashige-Tayasu (from the Kedaka line); 002 Itomoritaka (from the Fujioshi line) and 003 Kitateruyasu-doi (from the Tajiri/Tajima line). These bulls were bred to Hongen registered Kedaka, Tajiri and Fujiyoshi females.

**USDA CERTIFIED ANGUS BEEF (CAB)**

**100% USDA CERTIFIED & GRADED WISCONSIN BEEF - AGED FOR 15 DAYS THEN BLAST FROZEN**

**SUPER PRIME GRADE** - Super Prime Beef is the top 5% of Prime Grade Beef. It is the name given to it by the American Food Group.

**PRIME GRADE** - Prime Grade Beef comes from Steers (male cattle) with "abundant marbling". In other words, this is the best in class and 3 percent of the market. High-end Steakhouses once controlled the lion's share of Prime, but due to the economic slump, many Steakhouses have had to scale back, putting Prime steaks on the shelves at retail prices.

**DOUBLE GOLD** - This is Beef that comes from hard boned Steers that are 30+ Month Old. The USDA cannot Grade them due to their age. The quality is equal to USDA Prime Grade and is a lower cost alternative to USDA Prime.

**GOLD** - This is Beef that comes from hard boned Steers that are 30+ Month Old. The USDA cannot Grade them due to their age. The quality is equal to USDA Choice Grade and is a lower cost alternative to USDA Choice.

**CHOICE GRADE** - Is high quality, but has less marbling than Prime. Choice steaks and roasts from the loin and ribs will be very tender, juicy and flavourful and are suitable for dry-heat cooking.
